about ordering

Ordering products is a simple procedure. When you want to order an item, click on the "add to bag" button to add the product to your shopping cart. When you're shopping and you would like to add another item to your shopping cart, simply click on another category and continue shopping. In your shopping cart all the selected products will be shown. With each product, you can indicate the quantity you want to order. You just change the quantity in the "quantity" box and update the shopping cart. Should you change your mind and not want the product after all, delete the item and update the shopping cart. After doing so, you can continue shopping. When you are finished you can start the payment procedure.

By creating an account with our shop, you will be able to move through the checkout process faster, shop multiple delivery addresses, view and track your orders in your account and more.

After placing an order, an order confirmation will be sent to your e-mail address, summarising all the specifics of your order. Please note, your e-mail address should be correctly written. As soon as your payment is accepted by the bank, you will receive a payment confirmation. We can then process your order which will be shipped within a couple of days (if in stock).
